YMCA SUMMER DAY CAMP
IN EAGLE POINT

Located at the Outback Campus on E. Main Street

Monday - Friday
7:30 a.m. - 6 p.m.

Our day camp experience is tailored to the needs of each camper by dividing into two smaller camps (see below) which are then divided into mock cabins (a counselor and 10 to 15 campers) based on each camper's grade and gender.

The Ospreys (entering 1st - 3rd grade) - Osprey campers will participate in a Wednesday field trip and Friday swim day. Staff are selected for their skills in meeting the needs of this age group. Staffing ratio is 1 adult to every 10 campers.

The Eagles (entering 4th - 6th grade) - Eagle campers will participate in two weekly field trips (on Tuesday and Thursday) and Friday swim day plus will enjoy camp activities and experiences appropriate for this age group. Staffing ratio is 1 adult to every 15 campers.

Abacadabra (June 27-July 1) - Card tricks, rabbits in a hat, and magic wands. The world of magic revealed as we train to become skilled magicians.

Santa Claus is Coming to Camp (July 11-15) - You better be good, you better not pout because Santa Claus is coming to Camp. Trees, carols, hot cocoa, presents, snow, sledding, and the guy in the big red suit. Don't miss this week to remember!

Castles, Parapets, Turrets, and Keeps (July 18-22) - Kings and Queens, Lords and Ladies, Dukes and Duchesses travel with us to the days of castle life. Can you really build a complete Castle at Day Camp?

The Circus is Here (July 25-29) - We will be clownin' around as we tour all the circus has to offer: carnivals, face paint, juggling, the Bearded Lady, Reptile Boy, and The Ring Master.

What to expect each week? Campers will go on weekly field trips, enjoy Friday swim days, eat two snacks, create arts & crafts, sing camp songs, explore science, appreciate nature, learn outdoor living skills, play group games and perform skits. A detailed weekly schedule is distributed on the Friday before each week. To make sure that your camper is properly prepared for each day they should come dressed for the weather and ready to get dirty with a backpack filled with the required five: Lunch, Water Bottle, Sunscreen, Swimsuit and Towel. We work with Sodexo and the USDA Summer Foods Program to provide free sack lunches as an option for families (available for any income level).

Together We Make Our Community Safer!

Nuisance Weed Abatement

A good dose of moisture, combined with plenty of sunshine has once again created the perfect climate for weeds to flourish in Eagle Point this season. With hot, dry summer months quickly approaching now is the time to take care of high weeds and institute a plan to maintain weeds and brush throughout the summer and fall. The City's ordinance for weeds and excessive vegetation requires all property owners within the City limits with property less than one acre to maintain their grass and vegetation on their property to a height less than 10 inches. Shrubs, trees, flowers, vegetable gardens are excluded from the requirements. If your property is greater than one acre in the City limits, a 15-foot fire break (30 feet from any structure, including a fence) is required. Along with mitigating the safety hazard that tall, dry weeds pose to the community, our weed abatement program helps maintain the atmosphere of our community that many appreciate about Eagle Point. We appreciate the cooperative relationship that we have with property and business owners in our community. All of these hard working folks help maintain the livability of our community, which makes Eagle Point a great place to live.

The WATER QUALITY REPORT NOW AVAILABLE ON LINE

The Medford Water Commission and the City of Eagle Point have provided water quality information to its customers on a regular basis for decades. About fifteen years ago annual water quality reporting became mandatory and more formalized under changes in federal regulations, after which we began distributing these reports each year through mass mailing. While we support the rights of our customers to receive this information, the printing and mailing of these reports has been a substantial expense, and for those customers who didn't desire to read the report, a waste of paper as well. Meanwhile, over the last several years, use and access to the internet has become widespread. As a result, beginning this year we will not be distributing the annual water quality report through bulk mailing. Rather, customers can now easily access this report online at www.medfordwater.org/WaterQualityReport.pdf or www.cityofeaglepoint.org and click the water quality report link. Of course, we recognize that some customers do not have internet access and/or would prefer a paper copy. We are therefore printing some hard copies, which are available upon request by calling 541-826-4212. Call 541-826-4212 ext. 136 regarding any questions in the water quality report. As always, this report contains important information on the results of water quality testing during the prior year, as well as explanations of what these results mean. Information on the sources of our drinking water is also included, as well as water conservation tips to help customers save water and money. The online report also includes links to additional information. We encourage our customers to read this report, and hope the new online version is found to be a convenient way of receiving this important information, while also reducing the amount of paper received in each of our mailboxes.
