Fence & Screen Planting Permit Application

Date: _____

Address: _____

Applicant's Name _____ Phone # _____

Section 17.52.150 of the Eagle Point Zoning Ordinance requires that fences, walls, hedges and screen planting receive a Fence & Screen Planting Permit prior to installation. Please provide: 1) This form; 2) A dimensioned plan showing the existing structures and proposed fence; 3) A side view of the fence showing height, material and color; and 4) The application fee.

Description of Work: _____

Approval Criteria for fences, walls, hedges, and screen plantings:

1. Within the 15 foot front yard setback, the height does not exceed three and one-half feet (42 inches). Height is measured from the top of the curb along the adjacent street.
2. Within the 10 foot setback along a street on a corner lot, the height does not exceed three and one-half feet (42 inches). Height is measured from the top of the curb along the adjacent street.
3. Within the rear and side yards, the height does not exceed eight feet from the ground.
4. The fence is not electrified, except as allowed in the RF and non-residential zoning districts. However, this does not prohibit "radio" fencing programmed to the collar of a specific animal.
5. The installation does not extend beyond the property line, as verified by the property owner.
