Public Works Update – Stevens Road Improvements September 5, 2019

East Main Street/Stevens Road Improvements

Construction continues for Stage 1 of the E. Main Street/ Stevens Road Improvements by Knife River Materials. Stage 1 will be closed for construction into October of 2019. Access is limited to residents only and to emergency vehicles at all times. A temporary pedestrian detour was placed on Onyx Road, and accessed from Tabor Avenue and Bridgeport Drive on each side.

Construction of the new storm system began for the project.

The Ultrablock retaining walls were completed for Stage 1.

Modified RVSS manhole.

Water service lines were replaced.

Water quality structure location.

Onyx Road temporary pedestrian detour.

Utility relocation of City water service lines and hydrants were completed for Stage 1. One hydrant and two water service relocations were able to be avoided. The existing copper service lines were replaced with municipex to extend the life of the water system.

For the sewer manhole in conflict, Ashland Medford Plumbing lowered the sewer system from the mobile home park into the manhole. Knife River Materials followed by revising the manhole grade.

Two Week Look Ahead

Excavation of the road structural section will begin September 9, 2019 for Stage 1. The storm system for Stage 1 is scheduled to be completed, with construction of the storm system continuing into Stage 2. Stage 2 extends from Idlewood Drive to Robert Trent Jones Boulevard. Conduit and light pole foundations for Stage 1 are scheduled to begin mid-September.

Storm and excavation to be completed in the coming weeks.
